The screenshot displays the CBOLT software interface for setting folder permissions. On the left, a sidebar shows a network tree with various folders like ACC0303, BUC0310, and CBOLTADMIN. The main window is titled '조직도' (Organizational Chart) and shows a hierarchical structure of departments and teams. A search bar is at the top. On the right, a table titled '하위폴더 권한조회' (Subfolder Permission Query) lists users and their permissions (L, R, W, D). The user '전범수B(주임)' is selected. At the bottom, there are checkboxes for '상속 옵션' (Inheritance Options) and buttons for '확인' (Confirm) and '취소' (Cancel).
